Subject Index to Volume 21

A

A systems view of the orienting reflex 65

B

Blood pressure responses to hypnotic and nonhypnotic suggestions in normotensive subjects . 32
Book Reviews
Experimental assessments and clinical application of conditioned food aversions 67
Biology of learning, the 173
Progress in sensory physiology 5 173

C

Chronic pain as a reticular formation syndrome . 50
Comparative analysis of the conditional reflex discoveries of Pavlov and Twitmyer, and the birth of a paradigm, a 141
Conditional emotional response as a model of Pavlovian conditioning, the 1

D

Dentist phobia 16
Determinants of tonic and phasic reactions in transswitching 117

E

Editorial policy of rapid publication and broad coverage within the life sciences 15, 73, 127
Electrodermal discrimination with visual feedback in two incompatible stressful situations: a yoked control comparison 60

G

Gantt, correction to the announcement of the organization of the W. Horsley Gantt papers . 70
Gantt, Horsley Gantt Medal, the 69
Gastrin in the mechanisms of genetic determination of the feeding behavior in rabbits 000

H

High calcium intake does not prevent stress-salt hypertension in dogs 25

I

Increased regularity of activity of cortical neurons in learning due to disinhibitory effect of reinforcement 95

L

Letter to the Editor: Possible treatment for amytropic lateral sclerosis, a 124
Letter to the Editor: unilateral Parkinson's disease 176

O

On neurotransmitter mechanisms of reinforcement and internal inhibition 129
Orienting reaction in patients with multiple sclerosis 148

P

Pavlov and the concept of association 12
Pavlovian conditioning with proximal stimuli ... 156
Pavlovian Society
Future meetings of the 24, 70, 116
News and notes of the 177
The 1985 meeting of the, of North America .. 36
Pavlovian Society awards, recipients of 125
Possible treatment for amytropic lateral sclerosis, Letter to the Editor 124
Proflex, schizokinesis and the internal universe . 75

Q

Qualitative analysis of emotional effector patterns and their feedback, a 108

R

Rules of evidence in psychophysiological investigations 44

T

Transswitching and contextual conditioning: relevant aspects of time 160
